INTRODUCTION TO OUR BRANDS

THE CARAVAN TRAIL

After sketching initial designs back in 2011, the Caravan Trail has seen record growth. Capturing the essence of a 1960's family holiday in the great British Isles, the colours and patterns are nostalgic and unique.

COLOUR CANVAS

Inspired by current trends, the Colour Canvas collection offers contemporary and classic designs in a range of rich hues. This range will have something for everyone.

HIDDEN WORLD

Hidden world allows us to bring exploration and travels into the home. Culturally inspiring and exotic, this collection uses an authentic colour palette and artwork with a deep and meaningful heritage.

LITTLE RHYMES

Little Rhymes is a friendly teacher bringing story telling and education to the table. Its classic themes and lovely bright colours help children to count and sing whilst learning to eat.

SIENI

Sieni captures the crisp and calm energy of Scandinavian style. Minimalistic and functional, this collection is simple and quirky. Each piece has a handcrafted and unique feel.

STAC

Inspired by the rise of 1 to 2 person households, STAC was technically developed as a solution to modern day living. Each piece can be used to cook with or easily store food away.

Dorset Day Trip

Formed from tiny rural villages nestled in the rolling meadows and sandy coast lines, Dorset is known for its winding country lanes and breathtaking scenery. The Dorset Day Trip collection captures the spirit of this quintessential British county, with a soft colour palette and ditsy patterns combined with retro quirky icons. Allow The Caravan Trail to take you on a journey of surprise.

Founded in London, the Collier Campbell Studio has been creating hand-painted designs since the 1960s. They have collaborated with many of the world's most iconic brands including Liberty, Habitat and Yves Saint Laurent, who used designs by Collier Campbell as the inspiration for his first ever ready-to-wear collection.

What most distinguishes Collier Campbell is that every design is hand painted. This gives a fluidity and freshness that computer generated designs just can't match. Over the years they have created a wonderfully eclectic design portfolio – a mix of vintage summer blooms and geometric retro prints. Their passion for colour and quality is abundantly clear in this cornucopia of pattern.

CHURCHILL

Studio Bakewell

Inspired by the studio pottery movement, Studio Bakewell has a retro and rustic feel. It's distinctive speckle pattern was popular with Artisans in the 60's and has been revived in this latest collection. The warm colour palette and earthy humble tones have been influenced by the hand crafted pieces of the era.
